

Battery Chargers (Lead Acid) *3Stage*

9.5 to 294 Watts

Model 2240

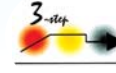

- 3step charge control with current detection as charge termination
- 6V1.3A, 12V1.0A and 24V0.5A models
- Universal input:- 90 - 264V AC
- Waterproof version available
- Medical approved (EN60601)
- Size: 90 x 45 x 32 mm

- 3step charge control with current detection as charge termination
- 12V2.5A and 24V1.45A models
- Universal input:- 90 - 264V AC
- Waterproof version available
- Medical approved (EN60601)
- Size: 107 x 67 x 36.5 mm

Model 9940

Model 9640/41

- 3step charge control with current detection as charge termination
- 6V2.7A, 12V2.7A, 24V1.5A and 36V1A models
- Universal input:- 90 - 264V AC
- Waterproof version available
- Medical approved (EN60601)
- Size: 100 x 51 x 63 mm

- 3step charge control with current detection as charge termination
- 12V4.3A and 24V2.17A models
- Universal input:- 90 - 264V AC
- Waterproof version available
- Medical approved (EN60601)
- LED indicator with 3 colours
- Size: 135 x 80 x 44 mm

Model 2040

Model 2140

- 3step charge control with current detection as charge termination
- 12V4.3A and 24V2.17A models
- Universal input:- 90 - 264V AC
- Waterproof (IP67)
- UL approved (UL2601-1)
- Medical approved (EN60601)
- Size: 140 x 48 x 83 mm

- 3step charge control with current detection as charge termination
- 12V5.0A and 24V2.5A models
- Switched mode technology
- Leads with battery clips
- Medical approved (EN60601)
- Size: 158 x 171 x 54 mm

Model 9840

Model 9740

- 3step charge control with current detection as charge termination
- 12V10A, 24V5A, 36V3.3A and 48V2.5A models
- LED indicator with 3 colours
- Waterproof version available
- Medical approved (EN60601)
- Size: 90 x 45 x 32 mm

- 3step charge control with current detection as charge termination
- 12V20A and 24V10A models
- Temperature compensated charging
- High efficiency (>83%)
- Protected against reversed polarity and short circuit
- Size: 215 x 186 x 63.5 mm

Model 2045
